Welcome to Kv7 Channels Symposium 2026 in Naples

It is a great pleasure to announce the 3rd International Kv7 Channels Symposium, which will be held 16–18 September 2026 at the Congress Center of the University of Naples Federico II, in the historic city of Naples, Italy.

Following the tremendous success of the 2023 meeting, the Kv7 community will once again come together to share the latest developments, foster new collaborations, and celebrate the continued growth of research in this fascinating field. After three years, the time feels right to reconnect, exchange ideas, and strengthen the bonds that make this community so dynamic and forward-looking.

Kv7 channels continue to attract researchers and clinicians alike, and the upcoming symposium promises to provide an engaging forum for both academic and industry perspectives. With a focus on innovation, collaboration, and translational potential, this meeting offers a unique opportunity to engage with leading scientists and industry partners working at the forefront of Kv7 research.

We are excited to welcome you back to Naples.

Kind regards from Symposium Chairs,

Institute of Molecular & Clinical Sciences,
St George's, University of London

Department of Neuroscience,
University of Naples Federico II

By sponsoring Kv7 Channels Symposium 2026, your company gains direct access to a highly specialized audience actively shaping the future of Kv7 research and its applications in neuroscience, pharmacology, and beyond. The symposium serves as a global stage where academic excellence meets translational potential, creating a fertile environment for innovation and collaboration.

Sponsorship provides your organization with:

- Global visibility in a focused and emerging field of high therapeutic relevance
- Valuable networking opportunities with international key opinion leaders and decision-makers
- A platform to showcase innovation, research, and products to a relevant and engaged audience
- An opportunity to support scientific progress and position your company as a committed partner in advancing Kv7 research
- Enhanced brand exposure in a dynamic and memorable setting at the University of Naples Federico II
- Flexible sponsorship and exhibition options tailored to help you meet your strategic goals
